## 2026 Community Sponsorship Program

## Investing In Our Communities

Artemis Gold's Blackwater Mine Community Sponsorship Program reflects our corporate belief that communities should benefit from our operations, both in the short and long term. We invest in sustainable community development.

The aim of our Community Sponsorship Program goes beyond traditional philanthropic corporate donations and strives towards creating a meaningful and lasting positive impact within the Mine region.

## Qualifying for Funding

We all benefit from the many local organizations and volunteers who generously contribute to the health and well-being of our community, and we understand that there are numerous worthwhile causes and groups requiring financial support.

Approved social investment initiatives are funded through the Mine's Community Sponsorship Program.

Through this program, we strive to help organizations create meaningful and lasting positive changes. We fund local initiatives that deliver measurable benefits to a broad range of people in the communities in the region in which we operate.

Our funding approach goes beyond traditional charitable donations to strategic social investment so that organizations, programs, projects, and the community-at-large can develop the needed skills beyond the Mine's projected lifespan.

Because we receive many applications annually, we invite you to review this information carefully and conduct an assessment, using the Applicant Checklist to decide if your organization, project, or initiative not only qualifies but would also stand out as being aligned with the community's development needs and the Mine's social investment strategy.
